SOUTHERN TOWNS

Distances from One Camp to Another

and How to reach Them.

Most people have an indirect

knowledge of the location of the var-

ious newly established towns in the

Southern Nevada gold districts few of

them have any definite intelligent idea

as to where each town actually is and

the relative direction and distance of

one from another. It will therefore be

of interest to many and valuable to

some to have them set forth. The

following carefully prepared informa-

tion regarding these localities, the

names of which are seen and heard

of every day more and more as time

passes, but just where they are situ-

ated in the broad expanse of southern

Nevada few persons could tell, even

among some of those interested more

or less in mining affairs.

Goldfield is 28 miles south of Tona-

pan, 16 miles south of Goldfield, 1

Tank Springs, 29 miles south brings

one to Summerville, the new strike

which is 3 miles west of Throp's Mill,

where is located the Nevada-Goldfield

Mining Company's property. 27 miles

south from Summerville is Muddy

Spring, 8 miles south from Muddy

is Old Bullfrog or Amagoza (now de-

serted) where the Original Bullfrog

district, now about six months old.

Three-quarters of a mile south is the

new town of Bullfrog, formerly called

Bonanza. From Rhyolite to Beatty,

a town of 500 people, is 4 miles north

east, passing the rich Montgomery

Edwards mine. Goin farther south

from Beatty, 4 miles, one reaches

Gold Centre with its 250 people. One

hundred and ten miles southeast from

Bullfrog are located the rich strikes

of Los Vegas, reached by some, via

the Clark railroad and stage.
